

Komisja XII – Elektryczne spawanie łukowe w osłonie gazów i pod topnikiem

- XII-2154-14 Study of MAG welding without steel-backing for joints of steel structures – T. Suga et al. (Japan)
- XII-2155-14 Innovative GMA welding of steel aluminum mixed compounds for modern multi-material design in vehicle construction - M. Angerhausen et al.(Germany)
- XII-2156-14 A study on start behavior in Gas Metal Arc Welding – P. Li et al. (Sweden) IV-1157-14, 212-1309-14
- XII-2157-14 Laser welding and additive manufacturing at Cranfield University – P. Colgrove et al. (UK) IV-1158-14, 212-1314-14
- XII-2158-14 Influence of the CO₂ content on operational performance of short-circuit GMAW - O. Liskevych, A. Scotti (Brazil) IV-1153-14, 212-1308-14
- XII-2159-14 Amendment to the reversed Marangoni-flow theory taking place of the ATIG welding – T. Sandor (Hungary) IV-1154-14, 212-1318-14
- XII-2160-14 Influence of shielding gases on the thermal efficiency during arc welding: an experimental investigation – J.P. Planckaert (France) IV-1155-14, 212-1310-14
- XII-2161-14 Investigation of a welded seam formation of submerged arc welding by CFD simulation of heat-mass transfer, electromagnetic and hydrodynamics processes supported with experimental researches – U. Reisgen et al. (Germany) IV-1156-14, 212-1316-14
- XII-2162-14 Research of technological opportunities for arc welding and surfacing with pulse feed of electrode wire - V.Lebedev, I. Lendiel (Ukraine) IV-1160-14, 212-1313-14
- XII-2163-14 Reconstruction of 3D transient temperature field for fusion welding processes on basis of discrete experimental data – A. Pittner, V. Karkhin, M. Rethmeier (Germany/Russia) IV-1159-14, 212-1311-14
- XII-2164-14 Sheath modelling for TIG welding - U. Füssel, M. Lohse, S. Rose (Germany) IV-1162-14, 212-1317-14
- XII-2165-14 Process control and supervision of gas metal arc welding processes by combined machine-vision data and quality models - U. Reisgen et al. (Germany)
- XII-2166-14 A novel thermal sensor applied to laser cladding – H. Köhler et al (Germany) IV-1161-14, 212-1315-14
- XII-2167-14 Influence of plasma properties on metal transfer phenomena in gas metal arc welding - M. Tanaka, M. Shigeta (Japan) IV-1163-14, XII-2167-14
- XII-2168-14 Numerical simulation of metal transfer in argon gas shielded GMAW - Intermediate report - Y.Hirata, Y.Ogino, N.Nitta (Japan) IV-1164-14, 212-1312-14
- XII-2169-14 Bridge ability of increasing gap in laser-GMA-hybrid welding of 22MnB5 – H. Kügler et al. (Germany) 212-1344-14
- XII-2170-14 An investigation on effect of process parameters on weld bead profile of modified 9Cr-1Mo steel by pulsed GMAW - S. Krishnan, D.V. Kulkarni, A. De (India)

- XII-2171-14 Development of two piece type contact tip for long life - M.Kutsuna, T. Murakami (Japan)
- XII-2172-14 Research on narrow-gap GMAW with swing arc system in horizontal position - H. Cui et al. (China)
- XII-2173-14 Dynamic variation of keyhole exit and its inclination in plasma arc welding - Z.M. Liu, C. S. Wu (China)
- XII-2174-14 Development of arc sensor for cold metal transfer arc welding – Ch. Kim (Korea)
- XII-2175-14 Development of self-shielded flux cored arc welding power source – Z. Liu et al. (Japan)
- XII-2176-14 A Study of friction stir welding for clad pipelines - T. Katayama et al. (Japan)
- XII-2177-14 Research on arc interference and welding operating point change of twin wire GMAW – D. Ye et al. (China)
- XII-2178-14 Index for identifying high and low power input into the workpiece for GMAW – G. Huismann, A. Burt (Germany) IV-1187-14, 212-1337-14
- XII-2179-14 Improved brazing of galvanized and press-hardened steels using CF-TIG - M. Häßler et al. (Germany)
- XII-2180-14 Metallographic structure variation of welds in pulsed-current micro-plasma arc welding – J. He (China)
- XII-2181-14 Wire-feed additive manufacturing of metal components: technologies, developments and future interests – D. Ding et al. (Australia) IV-1188-14, 212-1338-14
- XII-2182-14 Possibilities for compensating a higher heat input, in particular by the torch offset relative to the top sheet at the fillet weld on a lap joint - M. Ebert-Spiegel, S.-F. Goecke, M. Rethmeier (Germany)
- XII-2183r-14 Narrow-groove tandem GMAW – C. Conrardy et al. (USA)
- XII-2185-14 Additive manufacturing, derivative of welding & joining technology- A literature review – S. Marya et al. (France/India/USA) IV-1195-14, 212-1341-14
- XII-2186-14 The effect of pulsed frequency on the plasma jet force with ultra high frequency pulsed arc welding – M. Yang et al. (China)
- XII-2187-14 Determinations of net heat input in arc welding – O. Liskevych, A. Scotti (Brazil) IV-1186-14, 212-1322-14
- XII-2188-14 3D dynamic distribution of arc radiation in pulsed-current micro-plasma arc welding – J. He, S. Lin-Yang, F. Wang (China) IV-1189-14, 212-1332-14
- XII-2189-14 Contact-less temperature measurement and control with applications to laser cladding – H. Köhler, C. Thomy, F. Vollertsen (Germany) IV-1191-14, 212-1340-14
- XII-2190-14 Estimation of welding deformation based on CFD process simulation – J. Cheon et al. (Korea) IV-1192-14, 212-1327-14

- XII-2191-14 Interaction of CO₂-laser beam with argon plasma of gas tungsten arc – U. Reisgen et al. (Germany/Ukraine) IV-1193-14, 212-1329-14
- XII-2192-14 3D simulation of arc plasma and weld pool behavior for coupled arc assisted activating TIG welding – D. Fan et al. (China) IV-1194-14, 212-1330-14
- XII-2193-14 Super-high power fiber laser welding under low vacuum and its phenomena – S. Katayama et al. (Japan) IV-1183-14, 212-1342
- XII-2194-14 In-situ alloying of AISI 410L martensitic stainless steel with nitrogen during laser cladding (abstrakt) – C. J. Van Niekerk, M. Du Toit, C. Van Rooyen (South Africa) IV-1197-14, 212-1343-14
- XII-2195-14 Molten pool flow patterns in high power laser keyhole welding – S.-W. Han, J. Cheon, S. J. Na – (Korea) IV-1198-14, 212-1328-14
- XII-2198-14 Retrofitting modular monitoring and control systems for arc welding processes – S. Gorny, D. Liebenow, H. Musa (Germany)
